The "Big Numbers" Impact

- **$4.3M Revenue Lost:** This is the direct cost of the **32.7% cancellation rate**.
- **1 in 3 Bookings Cancel:** Our current booking quality is low; we are holding rooms that don't pay.

Top 3 Issue Areas

- **The "Lead Time" Trap:** Bookings made **150+ days** in advance have an **80–90% chance** of cancelling.
- **Online Segment Risk:** Our biggest revenue driver (Online) also has the highest cancellation rate (**36.5%**).
- **Zero Loyalty: 97% of guests are "one-and-done."** We have almost no repeat business to stabilize revenue.

The Fix: Action Items

- **Stricter Deposits:** Mandatory non-refundable deposits for any booking made **4+ months** out.
- **Target Corporate:** Prioritize Corporate/Aviation segments—they cancel **3x less** than online guests.
- **Drive Loyalty:** Launch a "Return Guest" offer immediately to move that **2.5% repeat rate** upward.
- **Dynamic Pricing:** ADR has flattened in 2018; we need to hike rates during the **Autumn peak ($2.5M season)**.
